

DriverSafety USA

is a Texas-certified defensive driving school that provides 6-hour classes to meet state requirements for ticket dismissal or insurance discounts. Our certified instructors stay abreast of new laws and regulations to keep content relevant. Additionally we provide an online course through our website in both English and Spanish.

We offer online classes in
English and in Spanish

Why Defensive Driving

The benefits of taking a defensive driving class vary with each state. In Texas, it can include keeping your driving record clean following a ticket and the assurance that insurance rates will not increase. Additionally, taking a defensive driving course can mean a reduction up to 10% in your insurance rates for a period of three years depending on your insurance carrier.
